## FINANCIAL AND COMMERCIAL

Review of the Week-The Changing Attitudes of the Stock Market.

GOLD FIRMER.

A Hardening Tendency in Money-Railway News-The Bond Market-Foreign Investments.

The individual was, gifted with a protean musical talent, was enabled to play upon "a harp with a thousand strings," had much the advantage of the money scribe who, essaying to keep his readers advised of financial topics, finds himself confined to the expression which can be elicited from a single one only. Paganini, with his one-stringed Stradivarius, enchanted his audience when he played the "Carnival of Venice;" but it is doubtful whether the same hearers would have borne its repetition many times in succession without

borne its repetition many times in succession without sentiments of weariness and disgust.

Yet we are compelled by the force of circumstances to strain weekly on the same theme—that of a dull, inactipe, weakly stock market—and the last six days have been a repetition of many six days preceding. The same dog cal dog pabulum day after day; bulls in clover at one hour, bears snarling at another—aprod and a grip alternately—but all the excitement confined to the contestants themselves, like performing prod and a grip alternately—but all the excitement confined to the contestants themselves, like performing beasts in a menageric. While stocks have fallen and risen, and buils and bears have quarrelled over fluctuations, the outside flublic, whose money is wanted to keep the show going, refuse to contribute a doilar. Brokers have more lives apparently than the famous cats of Kilkenny, or they would have masticated each other long since, for the struggle still goes on, though legitimate business has laded away like a shadow and hopes for the future grow less and less. This is the weekly story, and the single string upon which we are obliged to play until it

single string upon which we are obliged to play until it has become monotonous to writer and reader.

With the exception of a transient flurry stocks have slowly but surely settled toward lower prices. The general disappointment in trade circles of a spring revival of business, the necessities of enforced economy in matters of living, the want of ready cash with which to venture upon the perilous paths of speculation, and the feeling that with such men as Jay Gould as controllers of the market there is any-thing but a "fair deal" to be had, have driven away what little legitimate speculation there was inclined to be offered. Consequently, stocks left to the tender nercies of professional gamblers only have fallen from heir own weight, and have been shifted from one houlder to another, as the bearers, hopeless of profit,

shoulder to another, as the bearers, hopeless of prout, bave become tired of carrying them.

The story is not a cheerful one, but men of the "street" will not gainsay its truth. How and when matters are to be bettered is a question not easily to be answered. We are not readily recovering from the debauch of the bygone war times, when money flowed like water and the whole country was on a "big drunk" of speculation. We have awakened with a headache, and it requires more B and S than we can handily obtain to settle our shattered nerves. That we shall get on our pins again nobedy doubts, but we have taken auch liberties with the constitution of our prosperity that a complete re-establishment can only be the result of a slow and painful process.

The foreign commerce of the port for the week was as follows:—General merchandise imports, including dry goods, \$5,063,422; produce exports, \$4,523,402, and specie exports, \$853,320.

The total imports of merchandise since January 1

this year were \$99,485,571, against \$112,994,068 for the corresponding period in 1875 and \$130,940,777 in 1874. The total exports of produce since January 1 were \$69,336,952, against \$66,752,418 in 1875 and \$79,004,459 in 1874. The total exports of specie since January 1 were \$15,327,065, against \$17,665,348 in 1875 and 49,654,027 in 1874.

THE MONEY MARKET.

The rates of money on call loans during the week tended to greater firmness and the lower prices were exceptional. The extremes were 2½ and 6 per cent, with most of the business on the basis of 4 and 5 per The liscount market was easy at 4% and 6 per cent. The discount market was easy at 43 and 6 per cent. In foreign exchange the transactions were limited; but, with prices fairly maintained, importers were the principal buyers. Commercial bills have become scarce. Of the products occupying a prominent position in the export trade only cotton and grain show considerable activity. Petroleum is hold back in consequence of the advancing price, which is caused by unfavorable reports from the oil regions. GOLD AND SILVER.

ounce below the present market price.

There is now some demand from the West Indies for this coin, where it can be passed at nearly its face value in gold. Yesterday \$10,000 (dimes) and \$30,000 (halves and quarters), old issue, were taken at above 90, gold, for shipment there,

Speculation in gold was unsuggestive in the early part of last week, but later an advance occurred, and on Saturday the best price of the week was touched—to wit, 115½, with a close at 113½. This rise is, doubtless, due to sympathy with foreign finances, which are more or less affected by the disturbing influences of the

The aggregate carnings of all roads reporting, from January 1 to latest dates, compare with carnings of

Some, however, continue to gain handsomely; St. Paul, Toledo and Peoria, Kansas City and Northern, Iron Mountain, and, above all, Canada Southern, wiose earnings for March, 1876, are double those of the same month last year.

Governments closed easier and the business of the

Governments closed easier and the business of the week was limited. The demand is principally from banks and capitalists for permanent investment. The railroad bond market was likewise loss than usually active, though prices for odd lots were well kept up, especially for securities of known good standing. The total transactions of the week aggregate a little more than \$1,000,000.

State bonds have been neglected. The total official sales amounted to only \$215,000, of which those of the

sales amounted to only \$215,000, of which those of the District of Columbia were \$132,000, at 69%, 70, 68%, 69%; Missouri long bonds, \$5,000, at 104% a 104%; Missouri's of 1877, \$8,000, at 102%; New York Bounty, \$20,000, at 104%.

We learn on the authority of a Western newspaper that the Iowa railway pool, consisting of the Chicago, Burlington and Quincy; Chicago, Rock Island and Pacitic, and Chicago and Northwestern Railroad, have been fighting the Chicago and Alton Railroad on the California business ever since this line has established a route to Omaha in competition with the above roads. The result of the fight was that the through rates from New York to California have been unusually low dur-ing the last six months, and the provate of the Chicago roads has amounted to little more than nothing. The pool lines have at length become tired of the fight and

have buried the hatchet.

A meeting of the stockholders of Toledo, Wabash A meeting of the stockholders of Toledo, Wabash and Western is called, to be held in Toledo, Ohlo, May 31, for the purpose of considering the financial c. ndition of the company, and to see if anything can be done to prevent the sale of the road under foreclosure. General J. D. Cox, receiver, has been appointed special master commissioner to sell the road, and gives notice that, under decrees of foreclosure of the consolidated mortgage, and orders of sale issued by the courts in Ohlo, Indiana and Illinois he will uffer the road at public sale in Toledo, Ohio, June 10. The sale will include the road and its branches extending from Toinclude the road and its branches extending from To-ledo to Camp Point, Hamilton, Naples and East St. Louis, Ill., 601 miles in all, with the buildings, franchises, equipment and all other property pertain-ing to it. The property will be sold as a unit and sub-ject to all the lions prior to the consolidated mortgage and enumerated in the decree. The minimum price allowed is \$1,000,000, payable in cash or in consolidated bonds, to be taken at their pro rdta value, to be fixed by the Court. The sale is to be without redemption, but subject to confirmation by the courts.

An immense wharf is in process of construction at Cavan Point, N. J. A bill has been introduced into the Legislature enabling the Baltimore and Ohio Rall-road Company, who are supposed to be eagaged in the work, to take lands on the shore front by con-demnation. It is supposed that the railroad company intend to make Cavan Point their eastern terminus. The bill contemplates improvements in the shape of storehouses, &c., which will cost over \$15,000,000.

A telegram from Cincinnati states that the new six per cent thirty year gold loan of that city has been awarded to Espy, Heidelbach & Co. for the account of a Syntheste, consisting of Messrs. Kuhn, Loeb & Co.; Heidelbach, lekelnelmer & Co.; Neller & Co., and other bankers, of New York city.

PORKIGN INVESTMENTS.

The London Finencier, in an article on the above subject, makes the following comments, which, in a egree, are applicable to certain kinds of securities in

degree, are applicable to certain kinds of securities in our own country:—

The field of selection for investments meeting the present requirements of the public is becoming continually less and tess wide. A large number of foreign stocks have rightly come to be regarded with disfavor, and this is one cause why the available circle of investments has become of late unusually small. Another cause is that the public taste is now in favor of safety and moderate rates of interest, so that doubtful and speculative stocks are avoided. The demand for and speculative stocks are avoided. The demand for sound investment has been strong and continuous for a long time past, and all those dealt in on the London Stock Exchange which possess may claim to be regarded as such have been so cagerly bought that it has become the question of the day—In what direction must investors next turn their attention? The great demand for and the unusual scarcity of sound securities has been exemplified by the remarkable and, indeed, upprecedented manner in which the public have overcome long existing prejudices against several different classes of stock within the last few months. They are, in fact, ready to take any kind which can rightly be regarded as safe, and which yield a moderate rate of interest. It is, therefore, natural that they should look further affeld.

Dean Sie—The widespresd corruption in our public service which has disgraced the Republic in the eyes of the world but threatens to poison the vitality of our institutions, the uncertainty of the public mind and of party counsels as to grave economical questions involving in a great measure the honor of the government, the morality of our business lite and the general welfacing of the people, and the danger that an inordinale party spirit may, through the organized action of a comparatively small number of men who live by pointies accreed in overriding the most particule impulses of the people and in monopoliting positical power for selfishments, seem to render it most desirable tiffs no effort should be spared to secure to the opiniar desire for genuine reform a decisive influence in the impending national election.
